

About Me

I'm a versatile web developer and programmer with a robust foundation in web development, coding, and software design. My proficiency extends to backend technologies such as PHP, Laravel, and MySQL, as well as frontend technologies like HTML, CSS, and JavaScript. I am more efficient in backend development, enabling me to create comprehensive and efficient digital solutions. Coupled with strong time management and deadline-setting skills, I am well-equipped to deliver significant results in both technical and creative projects.

Skills

- Web Development
- Programming
- SQL & Database Management
- Basic Designing
- Computer Troubleshooting

Experience

Software Engineer 2023 - 2024
VRTSystem Corp

I am responsible for creating new features in the company's existing web applications as a trainee. I research and develop essential improvements to enhance functionality, optimize performance, and ensure a seamless user experience.

Desktop support technician March - April 2024
Collective Solution Inc.

As an intern, I am responsible for troubleshooting the hardware and software of the company's computers, ensuring optimal functionality and performance.

Recruitment and application support Aug - Nov 2023
Rapidoo Philippines

As an intern, I am responsible for recruiting delivery riders for the company and providing assistance when they encounter difficulties navigating through the application or encounter errors.

Website Rater 2021 - 2023
Appen Ltd.

I am responsible for rating websites by evaluating whether they contain plagiarized content. This involves comparing two websites with different URLs but with the same web design and content.

Ads Quality Assessor 2023 - 2024
Telus International Inc.

As an assessor, I ensure to evaluate each user query to provide correct output when an internet user searches for something on the web. Additionally, I rate the advertisements and product quality of business pages and landing pages on the web provided by the company.

Education

Quezon City University 2020 - 2024
Bachelor of Science in Information Technology

Informatics College-Eastwood 2018 - 2020
Information and Communications Technology

Judge Feliciano Belmonte Sr. High School 2014 - 2018

Holy Spirit Elementary School 2009 - 2014
